May 19, 2021 2:00PM-3:00PM: Evaluating 'what works' for children in order to inform policy, practice and potential

New Brunswick Social Pediatrics is an interdisciplinary practice that incorporates a number of health professionals, researchers, students, volunteers, and children and families into an inclusive care model. This team is committed to protecting the rights of children and giving them a safe place to have their voices heard. We also perform mixed-methods research and rigorous evaluation of our programs, and are very active in advocacy work. As such, we have a diverse audience with which we need to effectively communicate our work, our findings and the real-world evidence that supports our practice. Over the last several years, we have developed numerous strategies to meet this need and ensure that our messages are clear, concise and accessible. This presentation will provide an overview of these strategies and techniques.

February 25, 2021 2:00-3:30 PM: AGE-WELL: Canada's Technology and Aging Network

AGE-WELL is dedicated to the creation of technologies and services that benefit older adults and caregivers. Our aim is to help older Canadians maintain their independence, health and quality of life through technologies and services that increase their safety and security, support their independent living, and enhance their social participation. Learn how you can join our community of researchers, older adults, caregivers, partners and future leaders and accelerate the delivery of technology-based solutions that make a meaningful difference in the lives of Canadians.

AgeTech Insight Workshop: New Brunswick Trends and Priorities (45 min workshop)

Help AGE-WELL set the agenda for the future of AgeTech in Canada. In this workshop, participants will discuss current trends and emerging issues related to aging and the potential for technology to support aging well in the New Brunswick context.

AGE-WELL: CANADA'S TECHNOLOGY AND AGING NETWORK

February 25, 2:00-3:30 p.m. AT

Presentation @ 2:00-2:45 p.m.
Learn how to join AGE-WELL in making a meaningful difference in the lives of Canadians through technologies and services!

Workshop @ 2:45-3:30 p.m.
Discussions on current trends and emerging issues related to aging & the potential for technology to support aging well in New Brunswick.

AGEWELL

January 26, 2021 11:00 AM: So you want money? Programs and Funding from NBHRF

Watch it here!

Transcript

The New Brunswick Health Research Foundation (NBHRF) provides millions of dollars in the form of grants and salary awards to support New Brunswick health researchers and students each year. These funds are provided through the NBHRF's programs and its research partnerships.

Join us for the first webinar of our knowledge mobilization webinar series where you can learn about how to access NBHRF funds through its various awards and grants.

This webinar will highlight the open application programs and walk through some common questions and answers from applicant. With the summer studentship application deadline is fast approaching this webinar looks to help researchers be successful. Get insight on best practices and some tips from the Director of Research Programs.

Some questions you can expect to hear answered include . . .

How can researchers access funding specifically for their summer students?

Can one apply for funding anytime?

How much money can a researcher access from the NBHRF?
