Embedded Clinician Researcher Salary Award - CIHR

The Embedded Clinician Researcher Salary Award funding opportunity is a priority-driven initiative funded through CIHR's Roadmap Accelerator Fund (RAF). The RAF is intended to support transformative and impactful research that aligns with CIHR's [Research Priorities](#) and is multi-disciplinary in nature. Scientific leadership and support for this RAF-funded initiative is shared with CIHR's [Institute of Health Services and Policy Research \(IHSPR\)](#) and [CIHR's Institute of Musculoskeletal Health and Arthritis \(IMHA\)](#). Funding is for researchers based in New Brunswick. NBHRF will provide the partner contribution of \$25,000 (cash) per year towards salary costs. Applicants must have a written commitment from NBHRF attesting that the applicant is eligible for NBHRF funds. For more information on this and other programs visit [CIHR's website](#).

Embedded Clinician Researcher has no current competition.

Final Report

Award Recipients are required to submit a Final Report within 90 days of the project end date by completing the NBHRF final report form found by logging into your NBHRF account. **The signed financial statement from the institution and a summary project report must be attached in the "Final Report Attachments" section.**

All fields of the report form must be completed accurately. If information is missing or incorrect, the report will be rejected and recipients will be instructed to redo it.

The award recipient will receive an automated email confirming submission of the report. The award recipient will also receive an email from the NBHRF Program Director indicating whether or not the final report is complete and accepted. If it is not complete, appropriate actions will be arranged.

Recipients who do not submit a final report or any other required documentation will be ineligible for future NBHRF research funding.
