Articles in the Press:

Report: Drug industry is flourishing. New products, especially cancer-fighting immunotherapies, along with higher success rates in late-stage clinical trials, will boost pharmaceutical productivity to new highs, according to the Thomson Reuters 2015 CMR Pharmaceutical R&D Factbook. The report predicted drug manufacturers' sales could reach \$1.3 trillion by 2018. For more, [click here](#).

Dementia Risk Increased in Seniors With Newly Diagnosed Diabetes. For more, [click here](#).

New Brunswick Health Council report finds ongoing problems. The health council says government spending on health care has risen from \$7.82 billion to \$8.26 billion. For more, [click here](#).
